

EU-TYPE EXAMINATION CERTIFICATE

The following model of Personal Protective Equipment has been subjected to an EU-type examination in accordance with the module B of the PPE regulation (2016/425) and has been shown to satisfy to essential health and safety requirements.

Certificate N° 0075/6104/161/11/24/2703

Issued by CTC, Notified Body N°0075, to the following model of personal protective equipment :

Manufacturer : NEWWAY TECHNOLOGY (SUZHOU) CO.,LIMITED
NO.20 DAGANG ROAD, FUQIAO TOWN. TAICANG, JIANGSU
CHINA

Description

PPE Type : a safety footwear

Product reference : SSH08SB, TSP209SB

Article code : /

Construction and material of outsole : injected ; pu/pu outsole

Pictures :

SSH08SB

TSP209SB

Reference standard : EN ISO 20345:2022+A1:2024

Classification : I

Category : SB FO SR

Size range : 35-48

Toecap nature : Metallic

Insert nature : N/A

At the date of certificate the product is in compliance with Annex XVII of REACH regulation (n° 1907/2006 and revisions)

Full description of the PPE, reference rules verified in the context of the EU-type examination and information given on the product are detailed in the manufacturer's technical file index 01 dated from NOVEMBER 2024 and the user instructions index 2024-10-12.

NOTA : Any modification to new items of the personal protective equipment object of this EU type approval certificate or any modification of the information contained in the manufacturer technical file which served for the deliverance of the EU type approval certificate (change of address, change of company status) should be brought to the attention of the notified body in accordance with Annex V §7.2 of Regulation 2016/425. Any marking on the PPE which is not concerned by the Regulation (UE) 2016/425, is not covered by this certificate.

Issued in Lyon by

Didier GUISADO

Certification director

Date of first issue: 19 November 2024

Date of end of validity: 19 November 2029

In application of the Regulation 2016/425 of the European parliament and the Council of 9th March 2016 related to Personal Protective Equipment and repealing the Directive 89/686/EEC.

Field of use

construction, warehouse, supermarket, hospitals and in catering field - for mechanical risk

Risk assessment (Essential Health and Safety Requirement. Annex II - PPE Regulation)

		Applicable
§1	Requirements defined in the Annex II §1 are applicable to all PPE	☒
§1.4	Manufacturer's instructions and information is available	☒
§2.2	PPE is designed and manufactured in a way that perspiration resulting from use is minimised. Otherwise it must be equipped with means of absorbing perspiration.	☒
§2.4	If it is known that the design performance of new PPE may be significantly affected by ageing, the month and year of manufacture and/or, if possible, the month and year of obsolescence must be indelibly and unambiguously marked on each item of PPE placed on the market and on its packaging.	☒
§2.9	PPE incorporating components which can be adjusted or removed by the user	☒
§2.12	PPE bearing one or more identification markings or indicators directly or indirectly relating to health and safety	☒
§2.14	Multi-risk PPE	☒
§3.1.1	The PPE is intended to protect against impact caused by falling or ejected objects and collisions of parts of the body with an obstacle	☒
§3.1.2.1	The PPE is intended to protect against falls due to slipping	☒
§3.2	The PPE is intended to protect against static compression of a part of the body	☒
§3.3	The PPE is intended to protect against mechanical injuries	☒

FOOTWEAR CONSTITUTION

	Reference	Material	Color
UPPER	259	1.6-1.8MM COW SPLIT LEATHER	COFFEE, BLACK
	FL137	ELASTIC	COFFEE, BLACK

		UPPER BRAND LOGO:POLYMER	BLACK/ ORANGE, TURQUOISE/ WHITE/ RED

PROTECTION SCOPE

Basic requirements

This product has been designed to be a safety footwear.

The applicable basic requirements are detailed in the following standard(s):

- EN ISO 20345:2022+A1:2024 Safety footwear

This product is a category II PPE.

At the date of the certificate, the product is in compliance with Annex XVII of the European REACH regulation (n° 1907/2006 and revisions)

Additional requirements

The claimed additional requirements are :

- Closed seat region
- Cleated outsole
- Slip resistance (ceramic tile with glycerine)
- Outsole : Fuel oil resistance

MARKING - PACKAGING

Information marked on the footwear

- * Logo of the Manufacturer
- * Logo **CE**
- * Manufacturer's name or commercial brand
- * Manufacturer's postal address
- * Manufacturer's type designation
- * Size
- * At least year and month of footwear manufacture
- * The number and year of the applicable specific standard(s)
- * The appropriate codes of marking according to the applicable requirements and additional protection and performance claimed

Marking example

The location of the marking is : tongue lining

Method of marking on the footwear: stitching on the tongue lining

Packaging

1 PAIR/BOX, 6 PAIRS/CARTON

MEANS OF CONTROL

1.To control the quality of raw materials follow the methods below:

We asked our suppliers to test their upper leather for Cr VI, PH by themselves; asked lining suppliers to check tear strength, especially abrasion resistance; and the suppliers for toecaps need to test impact/compression for their components...after all raw material can reach relevant requirement, we will accept them and use in mass production.

2. During development, we will take some samples to check the main physical properties, such as impact, compression, slip resistance and so forth, in order that we can control the quality from development and will avoid some additional troubles in the following steps; if the result can meet requirement, we will process forward; otherwise we need pay more attention to development for the better shoes;

3. We control the whole procedure from cutting to package. Every step, relevant QC will check the quality, the semi-finished goods and finished shoes will be discarded if cannot reach requirement of quality. Of course we take some samples from line to test bond strength, impact ect to confirm the mass production are under control. Finally, before shipment, the QC will perform the final inspection randomly, the shoes will be delivered in case the result is acceptable.

4. When do bulk the production each batch, we shall pick up some shoes from producing site randomly to test impact, compression ,leather CR VI.... to control the quality to match the requirment of standard EN ISO20345:2022+A1:2024.”

PPE subject to ageing :

The design performance of this product can be affected by ageing. The peremption period is estimated at 2 years when stored in appropriate conditions (humidity, temperature, clean , ventilated, light). Before use, the footwear shall be visually controlled, in case of deterioration the footwear must be scrapped (abrasion, cut, tear...).

Declaration of conformity :

The EU declaration of conformity can be accessed on the website: www.ingco.com ,www.totalbusiness.com
